Subject index

Volume 125 (2002)

Accelerants; Carpet, Motor vehicles, Arson, Fire, Petrol, Gasoline, Matrix interference **125**, 22

African; Short tandem repeats, Population study, Chinese **125**, 279

Amelogenin; Sexual assault, Y-chromosome, DNA Typing, DYS 393, DYS 389, Spermatozoa **125**, 212

AmpFl STR SGM Plus PCR Amplification Kit; Short tandem repeats (STRs), Population data **125**, 90

Amphetamine; Methamphetamine, Gas chromatography and mass spectrometry **125**, 156

Amphetamines; Quantitative determination, Human hair analysis, Opiates, Cocaine, Croatian experience **125**, 120

Archival DNA genotyping; DNA fingerprinting, Formalin fixed tissues, STR **125**, 205

Arson; Carpet, Motor vehicles, Fire, Petrol, Gasoline, Accelerants, Matrix interference **125**, 22

Articular surfaces; Clavicle, Scapula, Pectoral girdle, New Zealand Polynesians, Discriminant analysis, Sex assessment **125**, 134

Ballistic; Forensic science, Skin–skull–brain model, Head model, Entrance wound, Gunshot, High-speed photography **125**, 190

Ballistic; Skin–skull–brain model, Head model, Forensic science, Gunshot **125**, 178

Bayes theorem; Evidence interpretation, Likelihood ratio, Bayesian networks **125**, 149

Bayesian networks; Evidence interpretation, Likelihood ratio, Bayes theorem **125**, 149

Benzodiazepines; Drugged driving, Repeat offences **125**, 75

Blind field test; Portable Raman analysis, Reliability of Raman identification, Emergency response, Identification of hazardous materials, Counterterrorism **125**, 12

Blood urea nitrogen; Forensic pathophysiology, Hyperuricemia, Creatinine, Hypoxia, Thermal injury, Skeletal muscle **125**, 59

Blood–brain barrier; Evans blue, Permeability, Cold exposure, Hyperglycemia **125**, 137

Blunt forces; Forensic science, Skin–skull–brain model, Head model, Bone model, Injury, Reconstruction, Fracture **125**, 195

Bone model; Forensic science, Skin–skull–brain model, Head model, Injury, Reconstruction, Fracture, Blunt forces **125**, 195

Brain death; Glycerol, Mannitol, HPLC, Regional distribution **125**, 127

Bullet trajectory reconstruction; Terminal ballistics, Glass, Ricochet **125**, 8

Bullet; Embolism, Venous system, Intermediary target, Forensic pathology **125**, 269

1,4-Butanediol; γ-Hydroxybutyric acid, γ-Butyrolactone, Capillary electrophoresis, Micellar electrokinetic chromatography **125**, 113

γ-Butyrolactone; γ-Hydroxybutyric acid, 1,4-Butanediol, Capillary electrophoresis, Micellar electrokinetic chromatography **125**, 113

Capillary electrophoresis; γ-Hydroxybutyric acid, γ-Butyrolactone, 1,4-Butanediol, Micellar electrokinetic chromatography **125**, 113

Carpet; Motor vehicles, Arson, Fire, Petrol, Gasoline, Accelerants, Matrix interference **125**, 22

Childhood; Sudden unexpected death, Infancy, Post-mortem investigation **125**, 262

Chinese; Short tandem repeats, Population study, African **125**, 279

Chloroquine; Suicide, Exhumation, Estimation of the time since death, Fatality **125**, 201

Clavicle; Articular surfaces, Scapula, Pectoral girdle, New Zealand Polynesians, Discriminant analysis, Sex assessment **125**, 134

Cocaine; Quantitative determination, Human hair analysis, Opiates, Amphetamines, Croatian experience **125**, 120

PII: S0379-0738(02)00043-9

CODIS; Short tandem repeat, Infrared fluorescence, Tuscany population **125**, 83

Cold exposure; Evans blue, Blood–brain barrier, Permeability, Hyperglycemia **125**, 137

Collaborative exercise; Mitochondrial DNA (mtDNA) polymorphism, Standardization, Forensic science heteroplasmy, Hair shafts **125**, 1

Control region; Mitochondrial DNA, HVR-I, HVR-II, Haplotype, Population data, Japanese **125**, 93

Counterterrorism; Portable Raman analysis, Reliability of Raman identification, Blind field test, Emergency response, Identification of hazardous materials **125**, 12

Creatinine; Forensic pathophysiology, Hyperuricemia, Blood urea nitrogen, Hypoxia, Thermal injury, Skeletal muscle **125**, 59

Cremation; Forensic anthropology, Elemental analysis, PIXE, GSW **125**, 37

Croatian experience; Quantitative determination, Human hair analysis, Opiates, Cocaine, Amphetamines **125**, 120

Development rate; Forensic entomology, Temperature, Weight, Length, *Protophormia terraenovae* **125**, 254

Discriminant analysis; Articular surfaces, Clavicle, Scapula, Pectoral girdle, New Zealand Polynesians, Sex assessment **125**, 134

DNA fingerprinting; Formalin fixed tissues, STR, Archival DNA genotyping **125**, 205

DNA Typing; Sexual assault, Y-chromosome, DYS 393, DYS 389, Amelogenin, Spermatozoa **125**, 212

Drugged driving; Benzodiazepines, Repeat offences **125**, 75

DXS10011; Y-STR haplotype, DYS19, DYS389I, DYS389II, DYS390, DYS393, X-STR, Population data, Japanese **125**, 273

DYS 389; Sexual assault, Y-chromosome, DNA Typing, DYS 393, Amelogenin, Spermatozoa **125**, 212

DYS 393; Sexual assault, Y-chromosome, DNA Typing, DYS 389, Amelogenin, Spermatozoa **125**, 212

DYS19; Y-STR haplotype, DYS389I, DYS389II, DYS390, DYS393, X-STR, DXS10011, Population data, Japanese **125**, 273

DYS389I; Y-STR haplotype, DYS19, DYS389II, DYS390, DYS393, X-STR, DXS10011, Population data, Japanese **125**, 273

DYS389II; Y-STR haplotype, DYS19, DYS389I, DYS390, DYS393, X-STR, DXS10011, Population data, Japanese **125**, 273

DYS390; Y-STR haplotype, DYS19, DYS389I, DYS389II, DYS393, X-STR, DXS10011, Population data, Japanese **125**, 273

DYS393; Y-STR haplotype, DYS19, DYS389I, DYS389II, DYS390, X-STR, DXS10011, Population data, Japanese **125**, 273

Elemental analysis; Forensic anthropology, PIXE, Cremation, GSW **125**, 37

Embolism; Bullet, Venous system, Intermediary target, Forensic pathology **125**, 269

Emergency response; Portable Raman analysis, Reliability of Raman identification, Blind field test, Identification of hazardous materials, Counterterrorism **125**, 12

Entrance wound; Forensic science, Skin–skull–brain model, Head model, Gunshot, Ballistic, High-speed photography **125**, 190

Estimation of the time of death; Post-mortem interval, Triple-exponential equation, Temperature ratio, Slope ratio **125**, 237

Estimation of the time since death; Chloroquine, Suicide, Exhumation, Fatality **125**, 201

Evans blue; Blood–brain barrier, Permeability, Cold exposure, Hyperglycemia **125**, 137

Evidence interpretation; Likelihood ratio, Bayesian networks, Bayes theorem **125**, 149

Exhumation; Chloroquine, Suicide, Estimation of the time since death, Fatality **125**, 201

Fatality; Chloroquine, Suicide, Exhumation, Estimation of the time since death **125**, 201

Fire; Carpet, Motor vehicles, Arson, Petrol, Gasoline, Accelerants, Matrix interference **125**, 22

Forensic anthropology; Elemental analysis, PIXE, Cremation, GSW **125**, 37

Forensic diagnostics; Implantable-cardioverter-defibrilator (ICD), Post-mortal diagnostics, Pacemaker (PM) **125**, 172

Forensic DNA typing; Short tandem repeat, X-chromosome **125**, 217

Forensic entomology; Temperature, Development rate, Weight, Length, *Protophormia terraenovae* **125**, 254

Forensic genetics; Y-chromosome STRs, PCR multiplex, Population genetics **125**, 86

Forensic medicine; Forensic sciences, Time of death, Postmortem interval, Microwave thermograph, Triple-exponential method **125**, 223

Forensic pathology; Bullet, Embolism, Venous system, Intermediary target **125**, 269

Forensic pathophysiology; Hyperuricemia, Creatinine, Blood urea nitrogen, Hypoxia, Thermal injury, Skeletal muscle **125**, 59

Forensic science heteroplasmy; Mitochondrial DNA (mtDNA) polymorphism, Standardization, Collaborative exercise, Hair shafts **125**, 1

Forensic science; Professional codes of ethics, Rules of conduct, Values **125**, 103

Forensic science; Skin–skull–brain model, Head model, Bone model, Injury, Reconstruction, Fracture, Blunt forces **125**, 195

Forensic science; Skin–skull–brain model, Head model, Entrance wound, Gunshot, Ballistic, High-speed photography **125**, 190

Forensic science; Skin–skull–brain model, Head model, Gunshot, Ballistic **125**, 178

Forensic sciences; Forensic medicine, Time of death, Postmortem interval, Microwave thermograph, Triple-exponential method **125**, 223

Forensic sciences; Postmortem interval, Time of death, Temperature at moment of death, Triple-exponential method **125**, 231

Formalin fixed tissues; DNA fingerprinting, STR, Archival DNA genotyping **125**, 205

Fracture; Forensic science, Skin–skull–brain model, Head model, Bone model, Injury, Reconstruction, Blunt forces **125**, 195

Gas chromatography and mass spectrometry; Amphetamine, Methamphetamine **125**, 156

Gas chromatography/mass spectrometry (GC/MS); 3,4-Methylenedioxymethamphetamine (3,4-MDMA), Nonaqueous capillary electrophoresis/fluorescence spectroscopy (NACE/FS) **125**, 142

Gasoline; Carpet, Motor vehicles, Arson, Fire, Petrol, Accelerants, Matrix interference **125**, 22

Glass; Bullet trajectory reconstruction, Terminal ballistics, Ricochet **125**, 8

Glycerol; Mannitol, HPLC, Brain death, Regional distribution **125**, 127

GSW; Forensic anthropology, Elemental analysis, PIXE, Cremation **125**, 37

Gunshot; Forensic science, Skin–skull–brain model, Head model, Entrance wound, Ballistic, High-speed photography **125**, 190

Gunshot; Skin–skull–brain model, Head model, Forensic science, Ballistic **125**, 178

Hair shafts; Mitochondrial DNA (mtDNA) polymorphism, Standardization, Collaborative exercise, Forensic science heteroplasmy **125**, 1

Hanging deaths; Postmortem interval, Vitreous humour, Potassium concentration **125**, 67

Haplotype; Mitochondrial DNA, Control region, HVR-I, HVR-II, Population data, Japanese **125**, 93

Haplotypes; Y chromosome, STR polymorphisms, Microsatellites, Iberian Peninsula, Multiplex **125**, 42

Head model; Forensic science, Skin–skull–brain model, Bone model, Injury, Reconstruction, Fracture, Blunt forces **125**, 195

Head model; Forensic science, Skin–skull–brain model, Entrance wound, Gunshot, Ballistic, High-speed photography **125**, 190

Head model; Skin–skull–brain model, Forensic science, Gunshot, Ballistic **125**, 178

High-speed photography; Forensic science, Skin–skull–brain model, Head model, Entrance wound, Gunshot, Ballistic **125**, 190

HPLC; Glycerol, Mannitol, Brain death, Regional distribution **125**, 127

Human hair analysis; Quantitative determination, Opiates, Cocaine, Amphetamines, Croatian experience **125**, 120

γ-Hydroxybutyric acid; γ-Butyrolactone, 1,4-Butanediol, Capillary electrophoresis, Micellar electrokinetic chromatography **125**, 113

HVR-I; Mitochondrial DNA, Control region, HVR-II, Haplotype, Population data, Japanese **125**, 93

HVR-II; Mitochondrial DNA, Control region, HVR-I, Haplotype, Population data, Japanese **125**, 93

Hyperglycemia; Evans blue, Blood–brain barrier, Permeability, Cold exposure **125**, 137

Hyperuricemia; Forensic pathophysiology, Creatinine, Blood urea nitrogen, Hypoxia, Thermal injury, Skeletal muscle **125**, 59

Hypoxia; Forensic pathophysiology, Hyperuricemia, Creatinine, Blood urea nitrogen, Thermal injury, Skeletal muscle **125**, 59

Iberian Peninsula; Y chromosome, STR polymorphisms, Microsatellites, Haplotypes, Multiplex **125**, 42

Identification of hazardous materials; Portable Raman analysis, Reliability of Raman identification, Blind field test, Emergency response, Counterterrorism **125**, 12

Implantable-cardioverter-defibrilator (ICD); Post-mortal diagnostics, Pacemaker (PM), Forensic diagnostics **125**, 172

Individual three-dimensional animated victim model; Shot reconstruction, Three-dimensional injury documentation, Streifenlichttopometrie (SLT) **125**, 245

Infancy; Sudden unexpected death, Childhood, Post-mortem investigation **125**, 262

Infrared fluorescence; Short tandem repeat, CODIS, Tuscany population **125**, 83

Injury; Forensic science, Skin–skull–brain model, Head model, Bone model, Reconstruction, Fracture, Blunt forces **125**, 195

Interdisciplinary investigation of airplane accidents; "Student-CYPRES" release, Landing approach, Pilatus PC 6 "Turbo-Porter", Internal decapitation **125**, 250

Intermediary target; Bullet, Embolism, Venous system, Forensic pathology **125**, 269

Internal decapitation; Interdisciplinary investigation of airplane accidents, "Student-CYPRES" release, Landing approach, Pilatus PC 6 "Turbo-Porter" **125**, 250

Japanese; Mitochondrial DNA, Control region, HVR-I, HVR-II, Haplotype, Population data **125**, 93

Japanese; Y-STR haplotype, DYS19, DYS389I, DYS389II, DYS390, DYS393, X-STR, DXS10011, Population data **125**, 273

Jews; Short tandem repeats, Profiler plus, Y-chromosome, Population genetics **125**, 52

Landing approach; Interdisciplinary investigation of airplane accidents, "Student-CYPRES" release, Pilatus PC 6 "Turbo-Porter", Internal decapitation **125**, 250

Length; Forensic entomology, Temperature, Development rate, Weight, *Protophormia terraenovae* **125**, 254

Light microscopy; Structural changes, Skeletal muscle, Supravital force effect **125**, 163

Likelihood ratio; Evidence interpretation, Bayesian networks, Bayes theorem **125**, 149

Madeira; STRs, Population data, PowerPlex16 System, Promega **125**, 281

Mannitol; Glycerol, HPLC, Brain death, Regional distribution **125**, 127

Matrix interference; Carpet, Motor vehicles, Arson, Fire, Petrol, Gasoline, Accelerants **125**, 22

Methamphetamine; Amphetamine, Gas chromatography and mass spectrometry **125**, 156

3,4-Methylenedioxymethamphetamine (3,4-MDMA); Nonaqueous capillary electrophoresis/fluorescence spectroscopy (NACE/FS), Gas chromatography/mass spectrometry (GC/MS) **125**, 142

Micellar electrokinetic chromatography; γ-Hydroxybutyric acid, γ-Butyrolactone, 1,4-Butanediol, Capillary electrophoresis **125**, 113

Microsatellites; Y chromosome, STR polymorphisms, Haplotypes, Iberian Peninsula, Multiplex **125**, 42

Microwave thermograph; Forensic sciences, Forensic medicine, Time of death, Postmortem interval, Triple-exponential method **125**, 223

Mitochondrial DNA (mtDNA) polymorphism; Standardization, Collaborative exercise, Forensic science heteroplasmy, Hair shafts **125**, 1

Mitochondrial DNA; Control region, HVR-I, HVR-II, Haplotype, Population data, Japanese **125**, 93

Motor vehicles; Carpet, Arson, Fire, Petrol, Gasoline, Accelerants, Matrix interference **125**, 22

Multiplex; Y chromosome, STR polymorphisms, Microsatellites, Haplotypes, Iberian Peninsula **125**, 42

New Zealand Polynesians; Articular surfaces, Clavicle, Scapula, Pectoral girdle, Discriminant analysis, Sex assessment **125**, 134

Nonaqueous capillary electrophoresis/fluorescence spectroscopy (NACE/FS); 3,4-Methylenedioxymethamphetamine (3,4-MDMA), Gas chromatography/mass spectrometry (GC/MS) **125**, 142

Opiates; Quantitative determination, Human hair analysis, Cocaine, Amphetamines, Croatian experience **125**, 120

Pacemaker (PM); Implantable-cardioverter-defibrilator (ICD), Post-mortal diagnostics, Forensic diagnostics **125**, 172

PCR multiplex; Y-chromosome STRs, Forensic genetics, Population genetics **125**, 86

Pectoral girdle; Articular surfaces, Clavicle, Scapula, New Zealand Polynesians, Discriminant analysis, Sex assessment **125**, 134

Permeability; Evans blue, Blood–brain barrier, Cold exposure, Hyperglycemia **125**, 137

Petrol; Carpet, Motor vehicles, Arson, Fire, Gasoline, Accelerants, Matrix interference **125**, 22

Pilatus PC 6 "Turbo-Porter"; Interdisciplinary investigation of airplane accidents, "Student-CYPRES" release, Landing approach, Internal decapitation **125**, 250

PIXE; Forensic anthropology, Elemental analysis, Cremation, GSW **125**, 37

Population data; Mitochondrial DNA, Control region, HVR-I, HVR-II, Haplotype, Japanese **125**, 93

Population data; Short tandem repeats (STRs), AmpFl STR SGM Plus PCR Amplification Kit **125**, 90

Population data; STRs, Madeira, PowerPlex16 System, Promega **125**, 281

Population data; STRs, Venezuela **125**, 277

Population data; Y-STR haplotype, DYS19, DYS389I, DYS389II, DYS390, DYS393, X-STR, DXS10011, Japanese **125**, 273

Population genetics; Short tandem repeats, Profiler plus, Y-chromosome, Jews **125**, 52

Population genetics; Y-chromosome STRs, PCR multiplex, Forensic genetics **125**, 86

Population study; Short tandem repeats, Chinese, African **125**, 279

Portable Raman analysis; Reliability of Raman identification, Blind field test, Emergency response, Identification of hazardous materials, Counterterrorism **125**, 12

Post-mortal diagnostics; Implantable-cardioverter-defibrilator (ICD), Pacemaker (PM), Forensic diagnostics **125**, 172

Post-mortem interval; Estimation of the time of death, Triple-exponential equation, Temperature ratio, Slope ratio **125**, 237

Post-mortem investigation; Sudden unexpected death, Infancy, Childhood **125**, 262

Postmortem interval; Forensic sciences, Forensic medicine, Time of death, Microwave thermograph, Triple-exponential method **125**, 223

Postmortem interval; Forensic sciences, Time of death, Temperature at moment of death, Triple-exponential method **125**, 231

Postmortem interval; Vitreous humour, Potassium concentration, Hanging deaths **125**, 67

Potassium concentration; Postmortem interval, Vitreous humour, Hanging deaths **125**, 67

PowerPlex16 System; STRs, Population data, Madeira, Promega **125**, 281

Professional codes of ethics; Forensic science, Rules of conduct, Values **125**, 103

Profiler plus; Short tandem repeats, Y-chromosome, Population genetics, Jews **125**, 52

Promega; STRs, Population data, Madeira, PowerPlex16 System **125**, 281

Protophormia terraenovae; Forensic entomology, Temperature, Development rate, Weight, Length **125**, 254

Quantitative determination; Human hair analysis, Opiates, Cocaine, Amphetamines, Croatian experience **125**, 120

Reconstruction; Forensic science, Skin–skull–brain model, Head model, Bone model, Injury, Fracture, Blunt forces **125**, 195

Regional distribution; Glycerol, Mannitol, HPLC, Brain death **125**, 127

Reliability of Raman identification; Portable Raman analysis, Blind field test, Emergency response, Identification of hazardous materials, Counterterrorism **125**, 12

Repeat offences; Drugged driving, Benzodiazepines **125**, 75

Ricochet; Bullet trajectory reconstruction, Terminal ballistics, Glass **125**, 8

Rules of conduct; Forensic science, Professional codes of ethics, Values **125**, 103

Scapula; Articular surfaces, Clavicle, Pectoral girdle, New Zealand Polynesians, Discriminant analysis, Sex assessment **125**, 134

Sex assessment; Articular surfaces, Clavicle, Scapula, Pectoral girdle, New Zealand Polynesians, Discriminant analysis **125**, 134

Sexual assault; Y-chromosome, DNA Typing, DYS 393, DYS 389, Amelogenin, Spermatozoa **125**, 212

Short tandem repeat; CODIS, Infrared fluorescence, Tuscany population **125**, 83

Short tandem repeat; Forensic DNA typing, X-chromosome **125**, 217

Short tandem repeats (STRs); Population data, AmpFl STR SGM Plus PCR Amplification Kit **125**, 90

Short tandem repeats; Population study, Chinese, African **125**, 279

Short tandem repeats; Profiler plus, Y-chromosome, Population genetics, Jews **125**, 52

Shot reconstruction; Individual three-dimensional animated victim model, Three-dimensional injury documentation, Streifenlichttopometrie (SLT) **125**, 245

Skeletal muscle; Forensic pathophysiology, Hyperuricemia, Creatinine, Blood urea nitrogen, Hypoxia, Thermal injury **125**, 59

Skeletal muscle; Light microscopy, Structural changes, Supravital force effect **125**, 163

Skin–skull–brain model; Forensic science, Head model, Bone model, Injury, Reconstruction, Fracture, Blunt forces **125**, 195

Skin–skull–brain model; Forensic science, Head model, Entrance wound, Gunshot, Ballistic, High-speed photography **125**, 190

Skin–skull–brain model; Head model, Forensic science, Gunshot, Ballistic **125**, 178

Slope ratio; Post-mortem interval, Estimation of the time of death, Triple-exponential equation, Temperature ratio **125**, 237

Spermatozoa; Sexual assault, Y-chromosome, DNA Typing, DYS 393, DYS 389, Amelogenin **125**, 212

Standardization; Mitochondrial DNA (mtDNA) polymorphism, Collaborative exercise, Forensic science heteroplasmy, Hair shafts **125**, 1

STR polymorphisms; Y chromosome, Microsatellites, Haplotypes, Iberian Peninsula, Multiplex **125**, 42

STR; DNA fingerprinting, Formalin fixed tissues, Archival DNA genotyping **125**, 205

Streifenlichttopometrie (SLT); Shot reconstruction, Individual three-dimensional animated victim model, Three-dimensional injury documentation **125**, 245

STRs; Population data, Madeira, PowerPlex16 System, Promega **125**, 281

STRs; Population data, Venezuela **125**, 277

Structural changes; Light microscopy, Skeletal muscle, Supravital force effect **125**, 163

"Student-CYPRES" release; Interdisciplinary investigation of airplane accidents, Landing approach, Pilatus PC 6 "Turbo-Porter", Internal decapitation **125**, 250

Sudden unexpected death; Infancy, Childhood, Post-mortem investigation **125**, 262

Suicide; Chloroquine, Exhumation, Estimation of the time since death, Fatality **125**, 201

Supravital force effect; Light microscopy, Structural changes, Skeletal muscle **125**, 163

Temperature at moment of death; Forensic sciences, Postmortem interval, Time of death, Triple-exponential method **125**, 231

Temperature ratio; Post-mortem interval, Estimation of the time of death, Triple-exponential equation, Slope ratio **125**, 237

Temperature; Forensic entomology, Development rate, Weight, Length, *Protophormia terraenovae* **125**, 254

Terminal ballistics; Bullet trajectory reconstruction, Glass, Ricochet **125**, 8

Thermal injury; Forensic pathophysiology, Hyperuricemia, Creatinine, Blood urea nitrogen, Hypoxia, Skeletal muscle **125**, 59

Three-dimensional injury documentation; Shot reconstruction, Individual three-dimensional animated victim model, Streifenlichttopometrie (SLT) **125**, 245

Time of death; Forensic sciences, Forensic medicine, Postmortem interval, Microwave thermograph, Triple-exponential method **125**, 223

Time of death; Forensic sciences, Postmortem interval, Temperature at moment of death, Triple-exponential method **125**, 231

Triple-exponential equation; Post-mortem interval, Estimation of the time of death, Temperature ratio, Slope ratio **125**, 237

Triple-exponential method; Forensic sciences, Forensic medicine, Time of death, Postmortem interval, Microwave thermograph **125**, 223

Triple-exponential method; Forensic sciences, Postmortem interval, Time of death, Temperature at moment of death **125**, 231

Tuscany population; Short tandem repeat, CODIS, Infrared fluorescence **125**, 83

Values; Forensic science, Professional codes of ethics, Rules of conduct **125**, 103

Venezuela; STRs, Population data **125**, 277

Venous system; Bullet, Embolism, Intermediary target, Forensic pathology **125**, 269

Vitreous humour; Postmortem interval, Potassium concentration, Hanging deaths **125**, 67

Weight; Forensic entomology, Temperature, Development rate, Length, *Protophormia terraenovae* **125**, 254

X-chromosome; Forensic DNA typing, Short tandem repeat **125**, 217

X-STR; Y-STR haplotype, DYS19, DYS389I, DYS389II, DYS390, DYS393, DXS10011, Population data, Japanese **125**, 273

Y chromosome; STR polymorphisms, Microsatellites, Haplotypes, Iberian Peninsula, Multiplex **125**, 42

Y-chromosome STRs; PCR multiplex, Forensic genetics, Population genetics **125**, 86

Y-chromosome; Sexual assault, DNA Typing, DYS 393, DYS 389, Amelogenin, Spermatozoa **125**, 212

Y-chromosome; Short tandem repeats, Profiler plus, Population genetics, Jews **125**, 52

Y-STR haplotype; DYS19, DYS389I, DYS389II, DYS390, DYS393, X-STR, DXS10011, Population data, Japanese **125**, 273
